## ABOUT VENCORA

WELCOME TO THE WORLD OF VENCORA HEALTHCARE PRIVATE LIMITED.

VENCORA HEALTHCARE is a company headquarter in Surat, Gujarat, India, which specializes in a broad range of nutraceutical and pharmaceutical products. Our company was established by Mr. Hitesh Kavadi and Mr. Ramesh Vala, in 2016 with the aim of high-quality products with affordable prices so, the consumer can reach at VENCORA from all over the world.

VENCORA just follows the international Guidelines and requirements to provide you the BEST QUALITY products using the modern Technique of Science and NDDS Technology in its Sophisticated Manufacturing Unit.

### Unrivalled Turnaround Time

We have one of the fastest lead times within the nutraceutical & Pharmaceutical industry.

### Finest Quality Ingredients

We only source ingredients from our reputable and trusted UK and EU suppliers.

### Nutraceutical Manufacturing Experts

After over Long years of producing nutraceutical & Pharmaceutical products, we have a bank of knowledge and experience to share.

### Expert Support and Advice

Our dedicated customer service team has helped to grow start-ups into globally recognised brands.

To provide the highest quality product at the lowest possible price, the best consumer experience in the industry, and respect for our employees, business partners, and community."

To inspire hope and contribute to health and well-being by providing the best healthcare products all over the world.

Our primary mission is "To Improve People's Lives" and that is what we do every day.

## QUALITY ASSURANCE

The quality management system deals with the approval/authorization, distribution, control, review, and storage. A team of highly skilled professionals undertake the inspection, quality audits, and review of product specification.

## QUALITY CONTROL

The quality control department is equipped with the most sophisticated testing machinery that ensures the best quality.

## RESEARCH AND DEVELOPMENT

A dedicated team of highly skilled professionals looks after the research and development of different new formulations. Currently, we are planning to launch 550+ products created by our R&D team.
